Subject: RE: USG

Sarah:

Thanks for letting us know about the meeting. We appreciate it.

I understand USG contacted us and asked to meet and for the files, and that we plan to send them the files. Since we will be dealing with them directly on the whole issue – the NOV, the evidence, the regs, and next steps – we prefer to send them the files directly. It will allow us to include an intro, an explanation of inputs, etc.

Thanks,

From: Kilgriff, Sarah D (MPCA) [mailto:sarah.kilgriff@state.mn.us]

Subject: USG

Hi Brian,

I just wanted to let you know that USG contacted Katie and asked to meet. We had a call with them today. They of course had questions about the NOV, MN SIP and stated that they felt the alleged violations were unusual/unique. We were not able to provide them with much information, however I did want to let you know that while we certainly did not make any disparaging remarks, we did state, as you are aware, that the MPCA agreed that the approach seems a little unusual to us as well.

They also asked to be provided with the modeling information that EPA used, and while I believe this is public information, I wanted to double check if it is OK to provide? or if you will be willing to provide it directly?

Thanks,
Sarah
